INTRODUCTORY LECTURE

Management of biotic resources in ancient Greece <i>V.P. Papanastasis, M. Arianoutsou & G. Lyrintzis</i>	3
---	---

THEME A: ECOLOGY

Plenary lecture

Mediterranean-climate ecosystems: defining their extent and community dominance <i>P.W. Rundel</i>	7
---	---

Oral contributions

Studies along an environmental gradient reveal how biome boundaries may respond to climate change <i>L. Agenbag, K.J. Esler & G.F. Midgley</i>	8
Main processes regulating plant spatial patterns in Mediterranean ecosystems <i>C.L. Alados & Y. Pueyo</i>	9
Differentiation of Coleoptera (Carabidae and Tenebrionidae) communities in Mediterranean-type ecosystems from mountainous areas in the Peloponnese, Greece <i>I. Anastasiou & A. Legakis</i>	10
Southern Aegean indicator values - Derivation, application and perspectives <i>N. Böhling</i>	11
Ephemeral establishment of therophytic, ruderal and wind-dispersed species after fire (Marseille, France) <i>V.H. Bonnet & Th.Tatoni</i>	12

Influence of fire severity on fynbos recruitment with particular emphasis on seed size <i>M.S. Botha, W.J. Bond & D. Euston-Brown</i>	13
Intra-specific variation of phenotypic plasticity for biomass allocation in Mediterranean pines <i>M.R. Chambel, R. Alia & J. Climent</i>	14
Interactions between water stress and freezing regulates chaparral distribution patterns in coastal California <i>S.D. Davis, B. Pratt, F. Ewers & T.J. Bowen</i>	15
The Leaf-Height-Seed plant ecology strategy scheme as applied to species from a Mediterranean old-field succession <i>E. Garnier, A. Bellmann, M.-L. Navas, C. Roumet & G. Laurent</i>	16
Fire, land cover and climate change: impacts on river flows in shrubland catchments <i>A.S. Hope, C.L. Tague & C.E. McMichael</i>	17
The effect of scale on the recorded spatial patterns of woody plant species community in an altitudinal gradient on Mt. Holomontas <i>A.S. Kallimanis, D. Vokou, J.M. Halley & S.P. Sgardelis</i>	18
The changes of beetle community structure along a successional gradient in <i>Pinus brutia</i> ecosystem <i>B.Y. Kaynas & B. Gurkan</i>	19
Factors determining low Mediterranean ecosystems resilience to fire: the case of <i>Pinus halepensis</i> forests <i>D. Kazanis & M. Arianoutsou</i>	20
Experimental evidences of climate change effects on plant recruitment in the Western Mediterranean Basin <i>F. Lloret, J. Peñuelas, M. Estiarte & R. Ogaya</i>	21
Modelling variations in patch plant composition and habitat heterogeneity using aerial photography and GIS <i>S. Mazor, T. Svoray & P. Bar (Kutiel)</i>	22
Integrating multiple components of long-term tree population dynamics: pine expansion on Mt Pithulim <i>R. Nathan</i>	23
Landscape pattern, fire regime and vegetation dynamics - A modelling approach <i>J.G. Pausas & J.I. Ramos</i>	24
Testing for promiscuity among legumes and rhizobia: an intercontinental comparison <i>M.A. Perez-Fernández, B.B. Lamont, S. Rodriguez-Echeverria & E. Calvo-Magro</i>	25
Temporal patterns of resource selection in plant-pollinator communities in the Mediterranean: what do they really tell us? <i>Th. Petanidou</i>	26
Relationship between life history type and resistance to xylem cavitation in California chaparral <i>R.B. Pratt, K.A. McElwain & S.D. Davis</i>	27
From seedling to landscape: an integrated study of spatio-temporal dynamics of <i>Sarcopoterium spinosum</i> <i>O. Reisman-Berman, R. Kadmon, Z. Henkin & M. Shachak</i>	28
Spatial duality: relationships between fragmentation and shape in patch dynamics <i>M. Shoshany & E. Kelman</i>	29
Using fuzzy systems to simulate population dynamics of Mediterranean arthropods <i>G.P. Stamou, E.M. Papatheodorou, G.V. Stamou & M.D. Argyropoulou</i>	30

Spatial patterns of herbaceous plant habitats in a basaltic environment: when ecology meets geology	31
<i>T. Svoray, S. Bar-Yamin Gancharski, D. Bowman & Z. Henkin</i>	
The importance of drought tolerance in structuring Mediterranean riparian plant communities	32
<i>Ch.Swift, J. Beedle & K. Ross</i>	

Seed ecology

Oral contributions

Soil seed banks in three contrasting high diversity Mediterranean-type shrublands from SW Australia	33
<i>N. Enright, B.P. Miller, N. Johnson, B.B. Lamont & G.L.W. Perry</i>	
Similarity between seed-bank and ensuing vegetation is productivity dependent in a semi-arid Mediterranean annual plant community	34
<i>J. Kigel, Y. Osem & A. Perevolotsky</i>	
Short- and long-distance seed dispersal in a metapopulation of <i>Banksia hookeriana</i> (Proteaceae)	35
<i>S.L. Krauss, T.H. He, L. Barrett, B.B. Lamont, B.P. Miller & N.J. Enright</i>	
Bradychory - The coining of a new term	36
<i>C.A. Thanos</i>	

Poster contributions

Fundamental and realised niches of fynbos and karoo seedlings as revealed by reciprocal transplants	37
<i>L. Agenbag, M.C. Rutherford, G.F. Midgley & K.J. Esler</i>	
An environmental gradient reveals how climate influences phenophases in fynbos growth forms	38
<i>L. Agenbag, K.J. Esler & G.F. Midgley</i>	
Pruning quantification and biomass production in two Holm oak (<i>Quercus ilex</i> L.) dehesas of southwest Spain	39
<i>R. Alejano, J. Alaejos & E. Torres</i>	
Influence of pruning on flower production and vegetative growth of holm oak (<i>Quercus ilex</i> L.)	40
<i>R. Alejano, R. Tapias, M. Fernandez, I. Seda, S. Contioso & P. Alesso</i>	
Flora and vegetation of Beira-Duriense mountains - an introduction	41
<i>J.D. De Almeida</i>	
Seed predation by ants (<i>Messor</i> spp.) in Iberian Dehesa grassland and scrubland	42
<i>F.M. Azcárate & B. Peco</i>	
Seed dormancy of two Australian Gyrostemonaceae fire ephemerals	43
<i>K.S. Baker, K.J. Steadman, J.A. Plummer, D.J. Merritt & K.W. Dixon</i>	
Spatial and temporal dynamics of <i>Quercus rotundifolia</i> woodlands in limiting semi-arid conditions	44
<i>A. Bonet, J. Peña & J. Bellot</i>	
Functional implications of opposite phyllotaxis in 12 Mediterranean woody species	45
<i>D. Brites & F. Valladares</i>	
Irradiance affects developmental plasticity for contrasting water availability in Canary Island pine	46
<i>J.M. Climent, J. Alonso, J.A. Pardos, L. Gil & I. Aranda</i>	
Postfire regeneration of Aleppo pine – density, survival and early growth of <i>Pinus halepensis</i> seedlings	47
<i>E.N. Daskalidou & C.A. Thanos</i>	
Effects of fire severity and erosion processes on vegetation recover in Mediterranean gorse shrublands	48
<i>M. De Luis Arrillaga, J. Raventós & J.C. González-Hidalgo</i>	

Elemental composition and litter decomposition of <i>Phillyrea angustifolia</i> L. at burned and unburned sites <i>A. De Marco, A. Forte, A.E. Gentile & A.V. De Santo</i>	49
The diet of red fox <i>Vulpes vulpes</i> and badger <i>Meles meles</i> in the Mediterranean ecosystems <i>A.M. De Marinis & A. Asprea</i>	50
The diet of the pine marten <i>Martes martes</i> in some Mediterranean islands <i>A.M. De Marinis, F. Amato & M. Masseti</i>	51
Interspecific differences in stomatal conductance and resource use efficiency in Mediterranean species <i>A. Escudero, S. Mediavilla, J.M. del Arco & H. Heilmeyer</i>	53
Fire recurrence effects on the structure in <i>Pinus halepensis</i> communities of Catalonia <i>M. Eugenio & F. Lloret</i>	54
The <i>Eucalyptus globulus</i> clone resistance to <i>Phoracantha semipunctata</i> depends on its response to water stress <i>M. Fernández, M.T. Arias, J.A. Pardos, F. Ruiz & F. Soria</i>	55
Postfire regeneration dynamics in a Mediterranean type ecosystem in Sithonia, northern Greece: ten years after the fire <i>P.P. Ganatsas, T.D. Zagas, M.N. Tsakalidimi & T.K. Tsitsoni</i>	56
Drought patterns and its ecological effects in east Spain during the second half of the 20th century <i>J.C. González-Hidalgo, S.M. Vicente-Serrano, M. De Luis Arrillaga & J. Raventós</i>	57
Phenological differences among genotypes of <i>Triticum dicoccoides</i> (wild emmer wheat) originating from different locations in Israel and germinated at the same time at Sede Boker. <i>Y. Gutterman & I. Bar-Av</i>	58
Flora of the sand dune ecosystems of Cyprus <i>A.Ch. Hadjichambis, A. Della, D. Paraskeva-Hadjichambi, K. Georghiou & P. Dimopoulos</i>	59
Fire Frequency Impacts Non-Sprouting Chaparral Shrubs in the Santa Monica Mountains of southern California <i>A.L. Jacobsen, S.L. Fabritius & S.D. Davis</i>	60
Traits of living leaves and decomposition rate of species from a Mediterranean secondary succession <i>E. Kazakou, E. Garnier, D. Gillon, C. Neill & G. Laurent</i>	61
Variation in intensity of competition along a Mediterranean successional gradient <i>E. Kazakou & M.-L. Navas</i>	62
Effect of climate on litter decomposition and soil organic matter sequestration in humus of Mediterranean pine forests <i>C. Kurz-Besson, M.-M. Coûteaux, C. Ribeiro & J. Romanya</i>	63
Snail populations in a post-fire Mediterranean habitat: preliminary results <i>E. Lachman</i>	64
The dispersal and post-dispersal phases in the regeneration of the Mediterranean shrub <i>Buxus balearica</i> <i>A. Lázaro & A. Traveset</i>	65
Population ecology of xylophagous beetles (Coleoptera: Cerambycidae) in Mediterranean <i>Quercus</i> forest (southwest of Iberian peninsula). Incidence on oak trees health (<i>Quercus ilex</i> L. ssp. <i>ballota</i> and <i>Quercus suber</i> L.) <i>G. López, L. Domínguez, I. Sánchez, R. Tapias, D. Cremades, A. Paramio & S.P. Alesso</i>	66
Net ecosystem exchange of carbon and water vapor in a southern California chaparral ecosystem <i>H. Luo, W.C. Oechel, H. Kwon & Y. Qian</i>	67

Experimental test of effects of habitat heterogeneity and plant diversity on ant community <i>G. Luque García, J. Reyes López & J. Fernández Haeger</i>	68
Olive tree and symbolic meaning. Prehistoric reflections on the world of today <i>A. Lyrintzis</i>	69
Evaluation of drought resistance of different provenances of <i>Pinus pinea</i> seedlings <i>A. Madmony, Y. Moshe, E. Ben-Moshe, A. Schwartz & N. Atzmon</i>	70
Fallow deer distribution and habitat in the Mediterranean landscape of Rhodes island as determined by a track survey: preliminary data <i>D. Mertzaniidou & A. Legakis</i>	71
Does the gradualness of leaf shedding control nitrogen resorption from senescing leaves? <i>R. Milla, S. Palacio-Blasco, M. Maestro-Martínez & G. Montserrat-Martí</i>	72
Spatial floristic heterogeneity inside an apparently homogeneous mediterranean forest <i>S. Mouro, H. Freitas & M.J. Pinto</i>	73
“The edge impact” - Causes and processes on arable lands in Israel <i>D. Negoitza & P. Bar (Kutiel)</i>	74
Temperature effect on the digestive efficiency of the main organic compounds in two Mediterranean lizards <i>P. Pafilis & E.D. Valakos</i>	75
Renewal structures and shoot growth of three species of woody Mediterranean dwarf shrubs growing along an altitudinal gradient <i>S. Palacio-Blasco, R. Milla-Gutiérrez & G. Montserrat-Martí</i>	76
Spatial and temporal patterns of fire and climate change in the eastern Iberian Peninsula (Mediterranean Basin) <i>J.G. Pausas & D.A. Malak</i>	77
Responses of annual plants to variable rainfall patterns: an empirical test of three models <i>M. Petru, K. Tielbörger & M. Sternberg</i>	78
Cape geophytes: putting the pieces together <i>S. Proches & R.M. Cowling</i>	79
Carbon and water vapor dynamics simulation in Southern and Baja California <i>Y. Qian, W.C. Oechel, H. Luo & S.J. Hastings</i>	80
Decomposition rates of legumes and cellulose in a <i>Pinus halepensis</i> Mill. forest of Greece after a wildfire <i>C. Radea & M. Arianoutsou</i>	81
Tree rings anomalies on <i>Pinus halepensis</i> in an inland/coast gradient: a dendroecological preliminary approach <i>J. Raventós, I. Dorado, M.J. Gras, M. De Luis Arrillaga & J.C. González-Hidalgo</i>	82
Bradyrhizobia infection of Mediterranean shrubby legumes: effectiveness and symbiotic promiscuity <i>S. Rodríguez-Echeverría & M.A. Pérez-Fernández</i>	83
The importance of grass height to hiding small mammals in Mediterranean habitat, preliminary results <i>A. Rosenfeld, A. Haim, A. Perevolotsky & R. Yonatan</i>	84
Aptitude for electroantennography (EAG) of olfactory stimuli of the holm oak (<i>Quercus ilex</i> L. ssp. <i>ballota</i>) and cork oak (<i>Quercus suber</i> L.) woodborer <i>Cerambyx welensii</i> Kuster (Coleoptera, Cerambycidae) <i>I. Sánchez, R. Tapias, G. López & L. Domínguez & S.P. Alesso</i>	85

Interactions between plastic responses to light and water availability in an experiment with tree seedlings. <i>D. Sánchez-Gómez, F. Valladares & M. Zavala</i>	86
Non syndromic pollination of <i>Cyclamen persicum</i> in Israel <i>R. Schwartz-Tzachor, D. Eisikowitch & A. Dafni</i>	87
Male and female solitary bees – Foraging and pollination <i>O. Shavit, A. Shmida & G. Ne'eman</i>	88
Patterns of seed dispersal in three co-occurring <i>Cistus</i> species in a <i>Pinus halepensis</i> forest of central Greece <i>P.Ch. Skourou & M. Arianoutsou</i>	89
Moisture effects on decomposition rates in a Mediterranean ecosystem of Attica, Greece <i>E. Sotiriou & M. Arianoutsou</i>	90
Seed bank ecology of a soil cultivated with glufosinate tolerant maize variety <i>E. Sousa, L. Caixinhas & F. Rocha</i>	91
Influence of pruning on diametric growth of cork oak (<i>Quercus suber</i> L.) <i>M.A. Suárez, E. Torres, R. Tapias & J. Vázquez</i>	92
The influence of phylogeny on functional grouping of species: a case study in herbaceous communities of Southern Spain <i>D. Tena, F. Valladares & L. Balaguer</i>	93
Post-fire spatial patterns of plant species richness at different scales in a Mediterranean cork-oak woodland in south-central Spain <i>I. Torres, B. Perez, F. Fernández & J.M. Moreno</i>	94
Aleppo pine (<i>Pinus halepensis</i>) natural regeneration, without fire, in the Kassandra peninsula, northern Greece <i>M.N. Tsakalimi, T.K. Tsitsoni, T. Zagas & P.P. Ganatsas</i>	95
A spatial analysis of precipitation, PET, and soil water balance effects on plant productivity in the middle Ebro valley (NE-Spain) using NOAA-AVHRR images <i>S.M. Vicente-Serrano, J.M. Cuadrat, J.C. González-Hidalgo & A. Romo</i>	96
Fire impact on plant species distribution in grazed maquis shrublands <i>M.S. Vrahnakis, C.L. Alados, V.P. Papanastasis, K. Iovi, M.M. Berdeli & D. Sirkou</i>	97
Changes of plant species diversity due to slope exposure in the core area of Mount Parnassos National Park, Greece <i>M.S. Vrahnakis, G. Goudelis, E. Papanikolaou & P. Voulgari</i>	98

THEME B: CONSERVATION & MANAGEMENT

Conservation

Plenary lecture

- Climate stability in Mediterranean-type ecosystems: implications for the evolution and conservation of biodiversity 101
R.M. Cowling, F. Ojeda, B.B. Lamont & P.W. Rundel

Oral contributions

- Impacts of fires occurring on rare *Grevillea* (Proteaceae) in southern Western Australia 102
P.G. Armstrong
- Restructuring and responding to threats and opportunities for conservation in the Cape, South Africa 103
L.D. Daitz, C. Marais & S.J. Bekker
- Conserving biodiversity and combating desertification: achieving synergies 104
V. Detsis & H. Briassoulis
- Biodiversity, stability, and ecosystem functioning in experimental Mediterranean grassland communities. 105
P.G. Dimitrakopoulos & A.Y. Troumbis
- A metapopulation model analysis for the fire-killed shrub, *Banksia hookeriana*, in southwestern Australia 106
J. Groeneveld & N.J. Enright
- Restoration of west coast renosterveld: facilitating the return of a highly threatened vegetation type 107
C.B. Krug, R.M. Krug, D.M. Iponga, B.A. Walton, S.J. Milton & N.N. Shiponeni
- Reconstructing west coast renosterveld: past and present ecological processes in a Mediterranean shrubland of South Africa 108
R.M. Krug, C.B. Krug, D.M. Iponga, B.A. Walton, S.J. Milton, I.P. Newton, N. Farley & N.N. Shiponeni
- Conservation of an exceptional flora within a unique biodiversity network: the City of Cape Town, South Africa 109
A.B. Low, U. Pond, L. Gerrans, G. Oelofse, G. Benn & R. Knight
- How well are Mediterranean ecosystems protected in Chile? Insights from gaps in the conservation of Chilean vertebrates 110
P.A. Marquet, M.F. Tognelli, I. Barria, M. Escobar, C. Garin & P. Soublette
- Reconstruction of a historical pollination landscape reveals the disruption of mutualisms in small conservation areas 111
A. Pauw, J.A. Hawkins & W.J. Bond
- Nature conservation in Mediterranean environments: the Israeli experience 112
A. Perevolotsky
- Hierarchical decomposition of plant diversity in “cork-oak agrosystems”: from habitats to landscapes 113
F. Rego, S. Dias, S. Mesquita & F. Fernandes-Gonzalez
- Conservation of a raptor in an intensively cultivated agroecosystem: the case of lesser kestrel (*Falco naumanni*) in Thessaly plain, central Greece 114
A. Sfougaris, A. Giannakopoulos, C. Alivizatos & C. Weigelt
- Experimental and theoretical approaches of the biodiversity - Ecosystem function debate in MTEs 115
A.Y. Troumbis

Poster contributions

What makes a rare <i>Grevillea</i> (Proteaceae) rare? <i>P.G. Armstrong</i>	116
Plant composition and diversity in fragmented natural patches within arable land, Israel <i>P. Bar (Kutiel), D. Negoitza, S. Mazor & T. Svoray</i>	117
Ecology and demography of two endangered narrow endemic plants (<i>Leucojum</i> , Amaryllidaceae) in southern France <i>K. Diadema, F. Médail, L. Affre, H. Castagné, F. Torre & F. Bretagnolle</i>	118
BioScene: scenarios for reconciling biodiversity conservation with declining agricultural use in the Mountains of Europe <i>A.S. Kallimanis, S.N. Heristanidis, M. Zomeni, S.P. Sgardelis & J.D. Pantis</i>	119
Demographic monitoring of four endemic plant taxa in the fire prone-environments of Central Greece: early results <i>Y. Kokkoris & M. Arianoutsou</i>	120
Rapid genetic delineation of provenance for native plant community restoration in a biodiversity hotspot. <i>S.L. Krauss</i>	121
Spatial analysis of scrubland management in Doñana National Park. Implications for the conservation of two endangered species (eagle and lynx) <i>I. López, D. Jordano, R. Villar & J. Fernández Haeger</i>	122
Seed dispersal as key process in the recruitment of an endangered plant: the case of <i>Daphne rodriguezii</i> Teixidor (Thymelaeaceae) <i>J. Rodríguez & A. Traveset</i>	123

Biological Invasions

Oral contributions

Comparative analysis of the abundance and distribution of alien plants on Mediterranean islands <i>G. Brundu, I. Camarda, P.E. Hulme, M. Vilà, A. Troumbis, A. Traveset & E. Moragues</i>	124
<i>Robinia pseudoacacia</i> L.: a dangerous invasive or a useful multi-purpose tree species in the Mediterranean environment? <i>O. Dini-Papanastasi</i>	125
The potential impact of alien woody plant invasions and their control on alien seed banks in the western Cape, South Africa <i>K.J. Esler & C. Boucher</i>	126
The current threat to Mediterranean islands from invasive non-native plants <i>P.E. Hulme</i>	127
Invasive plants and fire management in California Mediterranean-climate ecosystems <i>J.E. Keeley</i>	128
Local and regional abundance of exotic plant species on Mediterranean islands: species traits or island attributes? <i>F. Lloret, P.W. Lambdon, P.E. Hulme, I. Camarda, G. Brundu & F. Médail</i>	129
The post-Pleistocene non-volant terrestrial mammals of the Dodecanese archipelago. An example of the role of the biological invasion of allochthonous species in the homogenisation of Mediterranean island biodiversity <i>M. Masseti</i>	130

Costs and benefits of invasive exotic plants in the Mediterranean <i>A. Raquin, G. Edwards-Jones & D. Bardsley</i>	131
Invasive alien plants in South Africa: macroecological patterns, with special emphasis on the Cape Floristic Region <i>D.M. Richardson, M. Rouget, L. Henderson & J.L. Nel</i>	132
Airborne multispectral and hyperspectral imaging for management of invasive plants in southern California <i>D. Stow, L. Coulter, Y. Hamada, A. Lieberman, J. Kaiser, J. Jafolla & L. Hendricks</i>	133
<i>Poster contributions</i>	
Extreme invasional meltdown: multi-trophic interactions catalyse Mediterranean island invasions <i>K. Bourgeois, E. Vidal, C.M. Suehs & F. Médail</i>	134
Invasibility of Mediterranean grassland ecosystems at the neighborhood scale <i>E. Brezetou & A.Y. Troumbis</i>	135
Removal of <i>Carpobrotus acinaciformis</i> (L.) L. Bolus from environmental sensitive areas in Sardinia, Italy <i>L. Carta, M. Manca & G. Brundu</i>	136
Invasional meltdown: the case study of <i>Gomphocarpus fruticosus</i> and <i>Danaus chrysippus</i> in Sardinia, Italy <i>L. Carta, M. Manca, G. Brundu & I. Manca</i>	137
Invasion of <i>Arundo donax</i> in river systems of Mediterranean climates: causes, impacts and management strategies <i>G.C. Coffman, R.F. Ambrose & P.W. Rundel</i>	138
The invasion rate of <i>Acacia saligna</i> and its impact on protected Mediterranean coastal habitats <i>O. Cohen & P. Bar (Kutiel)</i>	139
Soil solarization as a method for reducing viability of invasive woody seed bank – The case of <i>Acacia saligna</i> <i>O. Cohen, P. Bar (Kutiel), J. Katan, J. Riov & A. Gamliel</i>	140
Using Landsat imagery to assess the distribution of alien plant species in coastal sage scrub of the Santa Monica Mountains, California. <i>S.J. Dark & T.W. Gillespie</i>	141
Effect of <i>Carpobrotus spp.</i> on the pollination success of native species. Interspecific pollen transfer as a mechanism of competition <i>E. Moragues, A. Traveset, C. Suehs, L. Affre & F. Médail</i>	142
Growth rate and modelling space occupation by the invasive species <i>Carpobrotus spp.</i> in Mallorca island (W. Mediterranean Sea) <i>E. Moragues, A. Traveset, T. Sintes & J. Rita</i>	143
Effects of <i>Oxalis pes-caprae</i> L. invasion on diversity and carbon cycle in the grassland understory of a Mediterranean olive grove <i>C. Petsikos, P. Dalias & A. Troumbis</i>	144
Weed dispersal in wheat fields by sheep stubble grazing <i>I. Schoenbaum, J. Kigel, D. Barkai & S.Y. Landau</i>	145
Does invasion by an alien plant species affects soil seed bank? <i>M. Vilà & I. Gimeno</i>	146

Impacts of plant invasion on species diversity in Mediterranean islands	147
<i>M. Vilà, M. Tessier, I. Gimeno, E. Moragues, A. Traveset, M.C. de la Bandera, C.M. Suehs, F. Médail, L. Affre, A. Galanidis, P. Dalias, B. Petsikos, L. Carta, M. Manca & G. Brundu</i>	

Management

Plenary lecture

Ecosystem management and conservation - Threats and opportunities in a changing world	148
<i>R.J. Hobbs</i>	

Oral contributions

Predicting the post-fire regeneration and resilience of Mediterranean plant communities	149
<i>M. Arianoutsou</i>	
Landscape changes along the coastal sand dunes in Israel – Dilemmas and challenges for conservation and management objectives	150
<i>P. Bar (Kutiel)</i>	
Returning the botanical richness of the jarrah forest in restored bauxite mines in western Australia	151
<i>C. Grant, J. Koch & I. Colquhoun</i>	
Human impact on the Mediterranean ecosystem of Israel as reflected by amphibian species	152
<i>A. Haim, D. Weiss, B. Rosenberg & Y. Dagan</i>	
Effect of cattle and goat grazing on landscape features and human visual qualities in Northern Israel	153
<i>Z. Henkin, L. Hadar & I. Noy-Meir</i>
