

Table of contents

Preface	XIII
 <i>Keynote lecture</i>	
The role of earth observation in land-surface – climate feedback studies <i>Barnsley, M.J., Los, S.O., Luckman, A.J., North, P.R.J., Harding, R.J., Taylor, C., Huntley, B., Baxter, B., Thomas, C., Balzter, H. & Wyatt, B.</i>	3
 <i>3D remote sensing</i>	
Analysing the effects related to the accuracy of laser scanning for digital elevation and target models <i>Ahokas, E., Kaartinen, H., Yu, X., Hyypä, J. & Hyypä, H.</i>	13
High resolution DEM and ortho-photomap generation from TERRA-ASTER data – Case study of Morocco <i>Goossens, R., Schmidt, M. & Menz, G.</i>	19
InSAR techniques and applications for monitoring landslides and subsidence <i>Rott, H., Nagler, T., Rocca, F., Prati, C., Mazzotti, A., Keusen, H., Liener, S. & Tarchi, D.</i>	25
Creation of a virtual landscape of Al-Madinah Al-Munwwarah in Saudi Arabia including 3-dimensional scene attributes <i>Alshammari, S.A. & Hayes, L.W.B.</i>	33
 <i>Modelling and analysis</i>	
Using multisource databases for automated identification of control points on RADARSAT images <i>Couloigner, I., LeBlanc, E., Djima, C., Bédard, Y., Moulin, B., Thomson, K.P.B., Latouche, C. & Spicher, N.</i>	43
The use of InSAR texture features in land use classification <i>Pal, M. & Mather, P.M.</i>	49
Object-oriented land use classification of polarimetric high-resolution SAR and hyperspectral HyMap™ data <i>Müller, A., Schmillius, C.C. & Benz, U.</i>	57

Dynamic scaling in the environment and remote sensing observation <i>Vasiliev, L.N.</i>	65
Aliasing assessment and mitigation of PRISM hyperspectral sensor simulated images <i>Aiazzi, B., Baronti, S., Santurri, L., Capanni, A. & Vitulli, R.</i>	71
Study of ICM parameters influence on images satellite contextual classification <i>Khedam, R., Belhadj-Aissa, A. & Ranchin, T.</i>	79
A rigorous protocol for post-classification land cover and land use change detection <i>Pons, X., Serra, P. & Saurí, D.</i>	87
Inter-Change: A software support for interpreting land cover changes <i>Büttner, G., Maucha, G. & Taracsák, G.</i>	93
A comparative study on SAR images speckle reduction in a wavelet transform framework <i>Houam, L. & Smara, Y.</i>	99
Impact of irreversible data compression on spectral distortion of hyper-spectral data <i>Aiazzi, B., Baronti, S., Santurri, L., Selva, M. & Alparone, L.</i>	107
Comparison of Lambertian and non-Lambertian topographic normalization algorithms: A case study in Gelibolu, Turkey <i>Cetin, M. & Musaoglu, N.</i>	113
 <i>Mapping post IKONOS</i>	
3D mapping with high-resolution images <i>Toutin, T., Chénier, R., Carbonneau, Y. & Alcaïde, N.</i>	121
CORONA - IKONOS-2, historical and recent very high resolution satellite data for change detection applications <i>Schmidt, M., Goossens, R. & Lauber, C.</i>	127
Evaluation of IKONOS images for forestry and habitat mapping: Applications through a Hungarian case study <i>Kristóf, D., Csató, É. & Szuhanyik, J.</i>	133
Assessment of road extraction methods from satellite images: Reflections and case study on the definition of a reference <i>Péteri, R. & Ranchin, T.</i>	141
Mapping with IKONOS images <i>Jacobsen, K.</i>	149
National orthophoto program (MADOP) as a common spatial reference of Hungarian GIS and RS system <i>Winkler, P.</i>	157
Landscape archaeology study of the Urartian presence in the Lake Sevan Region, Armenia <i>Parmegiani, N., Poscolieri, M. & Barbieri, M.</i>	167
The satellite image as a base to the tourist map of the Biebrza River National Park <i>Hoscilo, A.</i>	173
Geometric correction of satellite images using DGPS <i>Kaya, S., Ince, C.D. & Sahin, M.</i>	177
Analysis of spatial structure in images using local variance <i>Bøcher, P.K. & McCloy, K.R.</i>	183

Water and atmosphere

- Advances in remote sensing of snow and ice for modelling the runoff process 193
Seidel, K. & Martinec, J.
- A new generation of satellite based solar irradiance calculation schemes 201
Mueller, R.W., Heinemann, D., Hoyer, C., Kuhlemann, R., Dagestad, K.F., Olseth, J.A., Skartveit, A., Cros, S., Wald, L., Schroedter, M., Dumortier, D., Ineichen, P. & Piernavieja, C.
- Oil spill statistics of German territories 209
Viebahn, C. von
- Temperature dependence of fluorescence spectra of natural organic matter in seawater 217
Patsayeva, S. & Reuter, R.
- Towards a solar climatological database: The HelioClim project 223
Lefevre, M., Rigollier, C., Cros, S. & Wald, L.
- Studies of chlorophyll-a levels in the North Aegean Sea using SeaWiFS data 229
Jönsson, L.
- Development and validation of a sea surface fractal model: A project overview 237
Berizzi, F., Dell'Acqua, F., Gamba, P. & Garzelli, A.
- Sea surface temperatures of the Aveiro Region of the Atlantic coast of N. Portugal, using AVHRR data 243
Sacau-Cuadrado, M.M., Torres-Palenzuela, J.M., Vaughan, R.A. & Duck, R.W.

Data fusion

- Radiometric and textural fusion of multiresolution Landsat 7 ETM channels for the improvement of visual image interpretation and land cover classification 251
Mroz, M.
- A comparison of data fusion and unsupervised classification for change detection in Jeddah, Saudi Arabia 259
Al-Rowili, M.S., Fadda, E.H. & Vaughan, R.A.
- Fusion of multispectral and panchromatic images using new methods based on wavelet transforms – Evaluation of crop classification accuracy 265
González-Audícana, M., García, R. & Herrero-Isern, J.
- Decision-driven pyramid fusion of multi-spectral and panchromatic images 273
Aiazzi, B., Alparone, L., Baronti, S. & Pippi, I.
- Development of an algorithm for the Bayesian fusion of multi-angle, multi-polarisation and multi-frequency remotely sensed data 279
Notarnicola, C., Posa, F.
- Improving classification of tropical forest cover by fusion of Landsat TM and IRS-Pan data: A test case from Bangladesh 287
Rahman, M.M., Stibig, H-J. & Csaplovics, E.
- Wavelet-based de-noising for derivative spectra analysis 297
Shafri, H.Z.M. & Mather, P.M.

Policy and projects

- A comparison of spatial information access policies of transnational environmental modeling and global climate change programs 305
Longhorn, R.A.

Mapping night-time light emissions in the EU using satellite observed visible-near-infrared emissions as a policy tool: The MANTLE Project <i>Tang, M., Deane, G.C., Briggs, D.J., Conese, C., Benvenuti, M. & Petrakis, M.</i>	315
RICAMARE: Defining and leading a regional research agenda on major global change impacts in the Mediterranean using remotely sensed and in situ observations <i>Begni, G. & Moreno, J.M.</i>	323
SpaceGRID: An international programme to ease access and dissemination of Earth Observation data/products – How new technologies can support Earth Observation Users Community <i>Lamberti, F. & Beco, S.</i>	331
The integrated use of digital aerial orthophotos, satellite images and cadastral data in aid applications control in the frame of Polish IACS <i>Ciolkowska, M., Kosakowski, J. & Mróz, M.</i>	339
The MEDIAS-France structure and the MEDIAS network: Serving global change and remote sensing <i>Lacaux, J.P. & Begni, G.</i>	343
Controlling area based subsidies with RS and GIS in the EU <i>Pedersen, B.F.</i>	351
 <i>Snow and ice</i>	
Determination of sea ice sensitivity to warm ocean currents through the Barents Sea using SSM/I and SAR imagery <i>Rowan, E., Håkansson, B., Lindquist, K.</i>	359
Radar facies on the West Greenland ice sheet: Comparison with AVHRR albedo data <i>Brown, I.A.</i>	367
Gradient approach to INSAR modelling of glacial dynamics and morphology <i>Sharov, A.I.</i>	373
A distributed model to simulate the snow cover in Switzerland combining GIS and RS <i>Weibel, D., Wunderle, S. & Kleindienst, H.</i>	383
Development of methods to assimilate satellite observations to operative environmental monitoring and forecasting system of Finland <i>Pulliainen, J., Kärnä, J., Koponen, S., Hallikainen, M., Sucksdorff, Y., Kallio, K., Metsämäki, S., Pyhälähti, T., Vepsäläinen, J., Huttunen, M., Vehviläinen, B. & Kiirikki, M.</i>	389
Operative estimation of snow covered area for the needs of hydrological modelling <i>Metsämäki, S., Vepsäläinen, J., Huttunen, M., Hynninen, M., Pulliainen, J.</i>	395
The analysis of the suitability of remote sensed data for glaciological research in Spitsbergen <i>Ziólkowski, D.</i>	401
 <i>Forestry</i>	
Forest monitoring at local and global scale with passive microwave sensors <i>Macelloni, G., Paloscia, S., Pampaloni, P., Ruisi, R. & Santi, E.</i>	407
Tree species and age class mapping in a Central European woodland using optical remote sensing imagery and orthophoto derived stem density – Performance of multispectral and hyperspectral sensors <i>Schlerf, M., Atzberger, C. & Hill, J.</i>	413

Object-based stem density estimates in a Mid-European forest district based on artificial neural nets – Comparison of Landsat-TM and HyMAP performances <i>Atzberger, C. & Schlerf, M.</i>	419
Evaluating deforestation using Landsat TM and SPOT XS data in dry sub-tropical forest of Margalla Hills, northwest of Pakistan <i>Malik, R.N. & Husain, S.Z.</i>	429
Drought monitoring in Spain during the period 1987-2001, using NOAA-AVHRR images <i>González-Alonso, F., Cuevas, J.M., Calle, A., Casanova, J.L. & Romo, A.</i>	435
Digital classification of tree species and spatial structure of forest stands from remotely sensed data <i>Sumbera, S. & Zidek, V.</i>	439
Spatial pattern changes in Bory Tucholskie forest landscape <i>Kunz, M., Nienartowicz, A. & Filbrandt-Czaja, A.</i>	447
 <i>Environmental dynamics and risks</i>	
Operational mapping of storm forest damage and assessment of future VHR SAR and optical sensors <i>Yésou, H., Clandillon, S., Meyer, C., Allenbach, B., Maire, C., de Fraipont, P., Favard, J.C. & Béquignon, J.</i>	457
Object-oriented remote sensing tools for biodiversity assessment: A European approach <i>Ivits, E. & Koch, B.</i>	465
Combined use of AISA, HyMap and ultraspectral image data for detection of environmental features, a case history from Elijahävi chromium mine, Finland <i>Kuosmanen, V.V., Arkimaa, H.A., Kuosmanen, E.L. & Laitinen, J.L.</i>	473
Historical monitoring of Czech rural landscapes <i>Kremsa, V.</i>	479
The influence of political and socio-economic factors on environmental changes in Polish Beskidy Mountains in the second part of XX century <i>Blach, B.E.</i>	487
Long term vegetation change detection in an arid environment using LANDSAT data <i>Schmidt, M., Thamm, H.P. & Menz, G.</i>	491
The preparation of map of land use in mazowieckie voivodeship based on satellite images from NOAA Satellite with AVHRR Scanner <i>Krowczynska, M.</i>	497
 <i>Urban dynamics</i>	
New remote sensing sensors and imaging products for the monitoring of urban dynamics <i>Möller, M.</i>	505
Simulating the scale dependence of urban land cover inference for the region-based derivation of fine scale urban land use information <i>Barr, S.</i>	511
A multi-scale framework for mapping and analysis of the spatial and temporal pattern of urban growth <i>Herold, M., Clarke, K.C. & Menz, G.</i>	517
Assessing the potential of hyperspectral angular imaging of urban built form surfaces for the inference of fine spatial scale urban land cover information <i>Mackay, L. & Barr, S.</i>	525

Object-oriented mapping and analysis of urban land use/cover using IKONOS data <i>Herold, M., Scepan, J., Müller, A. & Günther, S.</i>	531
Spatial analysis of settlement and open land trends in urban areas on basis of RS data – Studies of five European cities over a 50-year period <i>Meinel, G. & Winkler, M.</i>	539
<i>Agriculture</i>	
Yield and quality estimation of malting barley based on remote sensing and GIS <i>Schelling, K., Weissteiner, C., Hünting, K. & Kühbauch, W.</i>	549
New land parcel identification system for agricultural subsidies in the Czech Republic <i>Trojáček, P.</i>	557
The operational Crop Monitoring and Production Forecast Program (CROPMON 1997-) and other RS based applications <i>Csornai, G., Wirnhardt, Cs., Suba, Zs., Nádor, G., Martinovich, L., Tikász, L., Lelkes, M., Kocsis, A. & Zelei, Gy.</i>	561
The experience of application of NOAA AVHRR and Landsat-7 data for cereal crop yield forecasting <i>Lyalko, V.I., Sakhatsky, A.I., Hodorovsky, A.Ya., Zholobak, G.M. & Bujanova, I.Ja.</i>	567
Relationships between morphological units and vegetation categories of Soratte Mount (Italy) as inferred by processing elevation and MIVIS hyperspectral data <i>Cavalli, R.M., Fusilli, L., Pascucci, S., Pignatti, S. & Poscolieri, M.</i>	573
Evaluation of interpretation possibilities of LISS-III satellite images <i>Lewinski, St. & Polawski, Z.F.</i>	581
Determination of soil activity from optical spectroscopy <i>Kariuki, P.C. & van der Meer, F.D.</i>	587
Comparison of selected vegetation indices as indicators of crop status <i>Broge, N.H., Thomsen, A.G. & Andersen, P.B.</i>	591
Four-band radiometer for portable and mobile measurements of canopy reflectance and red edge position <i>Thomsen, A.G., Broge, N.H. & Steffensen, F.S.F.</i>	597
<i>Geology</i>	
Deformation of Vesuvius revealed by 10 years of ERS mission <i>Lanari, R., Berardino, P., Sansosti, E., Fornaro, G., De Natale, G., Ricciardi, G.P., Borgstrom, S., Capuano, P., Pingue, F., Troise, C. & Bequignon, J.</i>	603
A new tool for measuring terrain deformation evolution by means of Synthetic Aperture Radar interferometry <i>Berardino, P., Fornaro, G., Lanari, R. & Sansosti, E.</i>	609
Remote sensing and geology of In-Azzaoua – Contribution of Landsat-TM images to the spectral characterization of the alteration profile with uranium mineralisation <i>Eddine Saad, A.Z. & Mesbah, C.</i>	617
The integration of optical and InSAR data for land subsidence monitoring and its impact on environment of the Upper Silesian Coal Basin <i>Mroz, M. & Perski, Z.</i>	621
Using remote sensing to produce the geological map of Wadi Al Awsaji area, Jordan <i>Fadda, E.H.R.</i>	625

Remote sensing and GIS

Integration of remote sensing and GIS for groundwater assessment in Eritrea <i>Solomon, S. & Quiel, F.</i>	633
Pelagic fisheries in Galicia (Spain): A brief study using GIS and remote sensing imagery <i>Torres-Palenzuela, J.M., Conde-Pardo, P. & Herrero, J.M.</i>	641
Image Metadata: Compiled proposal and implementation <i>Zabala, A., Pons, X.</i>	647
Analyzing features obtained from satellite data by means of GIS <i>Seker, D.Z., Goksel, C., Musaoglu, N. & Kaya, S.</i>	653
Mapping of city traffic network from digital aerial images <i>Barsi, A., Lovas, T. & Bakos, G.</i>	659
